Storage is offsite; contact the Utah State Archives to order.

DESCRIPTION: This series contains photographs (and some negatives and contact sheets), mostly of Governor Rampton at official functions, as well as photographs of Rampton with Lucybeth Rampton. Most of the photographs, with the possible exception of those depicting road dedication ceremonies, were probably taken by photographers other than Rampton's press secretary, such as newspaper photographers, those employed by state or federal agencies, or photographers hired by private companies. The photographs of the road dedication ceremonies seem to have been taken by a photographer hired by the Utah State Road Commission. Significant photographs in this series include documentation of road dedication ceremonies in 1966 and several photographs of Rampton with President Lyndon Johnson. This series also contains photographs of Rampton with Secretary of Commerce John T. Connor, Secretary of Defense Robert McNamara, and Secretary of Health, Education, and Welfare Wilbur J. Cohen, in addition to photographs of Rampton with other governors. Also included in this series are photographs of Rampton and Lucybeth Rampton taken by the "Salt Lake Tribune" and "Deseret News" newspapers.

ARRANGEMENT: This series is arranged into general groupings as follows: dated photographs, followed by undated portraits of Rampton, followed by undated photographs but identifiable by photographer, followed by undated photographs but identifiable in part by subject, followed by undated unidentified photographs. Arrangement within the dated photographs is chronological. Arrangement within those undated but identifiable by photographer is alphabetical by name of person, newspaper, or company. Arrangement within the remaining categories is random.

RELATED RECORDS: Photographs that were found with materials in other series of

Governor Rampton's records remained with those series. Researchers interested in locating a photograph dealing with a specific subject may wish to check related papers.

PROCESSING NOTE: This series will be microfilmed and the hard copy will be kept because of the intrinsic value of the materials. It was processed by Kira Robertson in February 2001 and scheduled in accordance with the Utah State Agency General Retention Schedule.
